GitHub: github.com/Shreyanshpo

E-mail: shreyansh1706@gmail.com
Mobile: +91-8840864789

SKILLS

Languages:	C, C++, Java, Python, Kotlin
Frameworks:	Jetpack Compose, Selenium WebDriver, JUnit
Tools & Platforms:	MySQL, MongoDB, Maven, Git, GitHub, DSA, No Code Tools
Backend:	Spring Boot, RESTful APIs, Nodejs
Soft Skills:	Flexible, Strategic, Quick Learner, Project Management, Reliable

PROJECTS

AI-Based Crop Recommendation System	Since Aug'25
- Crafted a web-based agricultural intelligence platform delivering tailored crop suggestions, disease insights, and market analytics through advanced AI-driven models. - Incorporated diverse external APIs—Soil Grid, Bhuvan Satellite Imagery, OpenWeather, Agmarknet, Google Speech—to enable real-time soil profiling, forecasting, price tracking, and voice interaction. - Reduced data latency in the agricultural intelligence platform by 20% through optimized code, enabling farmers to access critical insights more quickly, especially during crucial decision-making.	
Travel Planner Application	Jun'25 – Jul'25
- Engineered “Travel Buddy”, a desktop travel-planning system with optimized data structures (LinkedList, HashMap, Array List) enabling O(1) hotel lookups and 10 ms city searches. - Implemented lazy-loading, cached HTML string rendering, and anti-aliased UI pipelines, reducing memory usage by 40% and maintaining 20 ms UI refresh cycles. - Structured modular classes for hotel, city node, and core logic, enabling precise cost computation, navigation handling, and robust input validation.	
AI-Powered Escape Room Assistant	Jan'24 – Feb'24
- Created an AI-enabled Escape Room assistant using HTML5, CSS3, JavaScript, and the Gemini API to analyze text riddles, image puzzles, and hybrid challenges. - Implemented core features: dynamic chat system, typing indicators, voice/camera input, Base64 image handling, and async API calls with error handling. - Engineered a responsive UI with modular components, gradient branding, dark mode aesthetics, and optimized event-driven message flow for real-time interaction.	

TRAINING

Data Structure and Algorithm <i>Center of Professional Enhancement</i>	Jun'25 – Jul'25
- Completed Data Structure and Algorithm training, acquired hands-on expertise in using data structures to build efficient applications. - Applied theoretical knowledge of Data Structures and Algorithms to real-world scenarios, including building a comprehensive Travel Planner Application.	

CERTIFICATES

Privacy and Security in Online social media NPTEL	Oct'25
Master Generative AI & Generative AI tools (ChatGPT & more) Udemy	Aug'25
Programming in C Coursera	Jul'24
Cyber security and hacker tactics Infosys	Nov'23

ACHIEVEMENTS

Solved 100+ DSA problems on LeetCode strengthening problem-solving and algorithmic thinking skills LPU	Feb'25
Achieved the title of top performer in web hackathon.	Aug'24

EDUCATION

Lovely Professional University	Jalandhar, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.92	Aug'23 - present
ST. Therese School	Kushinagar, Uttar Pradesh
Intermediate; Percentage: 80%	Jun'22 – May'23
Matriculation; Percentage: 83.25%	Mar'20 – May'21
